

## THEME

All themes with a particular focus on defining and exploring leadership

## SUB THEMES

All sub themes apart from the Leading in Action sub theme

# Leading the Leaders Workshops

## Overview

The Leading the Leaders Workshops provide knowledge that underpins Growing Leaders at Stage 4.

The Leading the Leaders workshop complements the Leader Journal template from the Leadership Foundation Stones learning activity.

It is suggested that Facilitators lead this workshop for one or two hours, and encourage Participants to relate the content of the workshop to their own understanding of leadership.

The Growing Leaders CD-Rom includes five PowerPoint presentations that may be useful in the Leading the Leaders workshop. They are:

- The Growing Leaders Programme – useful for introducing the Growing Leaders programme
- What is Leadership?
- Leader Values – useful in the Leading Self theme
- Team Culture – useful in the Connectedness theme
- Change – useful in the Contributing and Influencing theme.

The Growing Leaders ThinkTank contains Leadership Tools that are useful for the workshop.

Facilitators are encouraged to include some practical activities or icebreakers in the workshop to emphasise the interactive nature of Growing Leaders.

## Knowledge and skills

Provides introductory knowledge around aspects of leadership.
